

Call for articles

Global Communications Newsletter

- **[Global Communications Newsletter](#)**
 - appears monthly within IEEE Communications Magazine.
 - <http://www.comsoc.org/pubs/gcn/index.html>
- It provides an excellent opportunity to present news and events related to communications around the world, as well as activities carried out by IEEE Communications Society chapters in greater detail.
- In general, articles that will be published on the Global Communications Newsletter will not be technical papers, neither even technical surveys. Rather, they will be short articles informing the community of the IEEE Communications Society about various activities that are carried out or organized in the four corners of the world by the many volunteers that are the true *engine* of IEEE Communications Society. Also major news from telecommunications regional industry, operators and academia may be of great interest to our global community.
- The relevance, timeliness and interest of reports published on our Newsletter will depend on your cooperation. The willingness of everyone to contribute with timely and informative reports will be essential to ensure the success of our Newsletter. We look forward to receiving your submissions.
- Candidate article categories (but not limited to):
 - Message form AP Director
 - yearly
 - Report on DLT in AP region
 - yearly
 - Report on AP Young Researcher Award
 - yearly
 - Report from Chapter Activity in AP region
 - per proposal from open call
 - Report on hot topic of telecommunications R&D in AP region
 - per proposal from open call
 - Call for Articles will be posted on the AP homepage.
 - Report on major international conferences in AP region
 - ISC will contact candidate authors to collect the reports on conferences. For instance,
 - APSITT: general area (spring)
 - OECC: optical network area (summer)
 - APCC: general area (autumn)
 - COIN: optical network area (autumn)
 -
